MAY YOUR EARS BE HEARING

and your heart be light

May good luck pursue you each morning and night.

Celebrating
**30 YEARS
OF SERVICE**

TINY STATE-OF-THE-ART DEVICES

We carry the latest technology that captures a wider range of sounds than other traditional systems—particularly in the high frequencies. Speech will sound clearer and music far richer. You'll have a much better idea of where sounds are coming from in your environment.

TAKE COMFORT IN STYLE

Rather than putting the speaker in the hearing device, many of our devices place it comfortably in your ear. The "Receiver-in-the-Ear" concept makes these systems virtually invisible—and the sound is exceptionally clear.

THERE IS A SYSTEM JUST RIGHT FOR YOU

From size and color to performance, accessories and settings, AGX9 systems are completely customized to fit your personal preferences. They feature great design that's almost invisible and many trendy colors to match your hair or skin tone.

New technology allows an open fitting which provides more natural sound quality and helps prevent the "plugged up" feeling.

Celebrating 30 Years of Service

Holiday Special this month only!

\$500 off per pair.

Good through March 31st.

Schedule your
appointment today!
BETTER HEARING EVENT
